

MADE TO MEASURE: Wine Racks from Wine Case

Design Your Own Made To Measure Wine Rack...and we'll build it just for you!

Wine Case offer the Traditional Wood & Metal Wine Racks on a Bespoke Made To Measure basis, enabling you to put to good use that space under Stairs, in the Pantry, in the Garage or just about anywhere!

Almost any shape can be achieved!

Follow this step by step guide to designing and ordering your made to measure Wine Rack - You may find it useful to print this page!

Please Note:

Large racks will have to be made in separate sections for delivery purposes, in these cases a connecting system will be included with instructions.

In the interests of safety all racks higher than 5 holes must be fixed securely to the wall, using appropriate screws and wall plugs (not supplied). In all cases our wine racks must be floor standing. Wine Case can accept no responsibility for loss or damage resulting from inappropriate installation or misuse of our products.

Please contact us if any of the following points are an issue to you:

- 1). Is your cellar/room particularly damp?
- 2). Does your cellar/room flood?
- 3). Is fixing to the wall a problem in the your cellar/room – i.e., Tanked Walls?

Racks are also available for storing Half Bottles, Magnum Bottles and for great space saving there is Double Depth Racking, where 2 bottles are stored per opening.

Quotations upon request

Wine Case Step by Step Guide

Follow this step by step guide to designing and ordering your made to measure Wine Rack.

Step 1 - Measure the space you wish to Rack. You will find both Metric and Imperial versions of the Grid Plan. Simply plot the dimensions you have. Please allow for a depth of 400mm or approx 16 inches for the depth of the rack and the bottles being stored in it.

Step 2 - Make sure there are no visible obstructions on the wall or the floor. e.g., Pipes, Cables, Light switches, etc. Also please check for un-seen hazards; water pipes or electric cables which may cause a problem when securing to / drilling into the wall.

Step 3 - Check the route to the area to be racked, to ensure there will be no problems with access e.g., stairways, narrow doorways, etc.

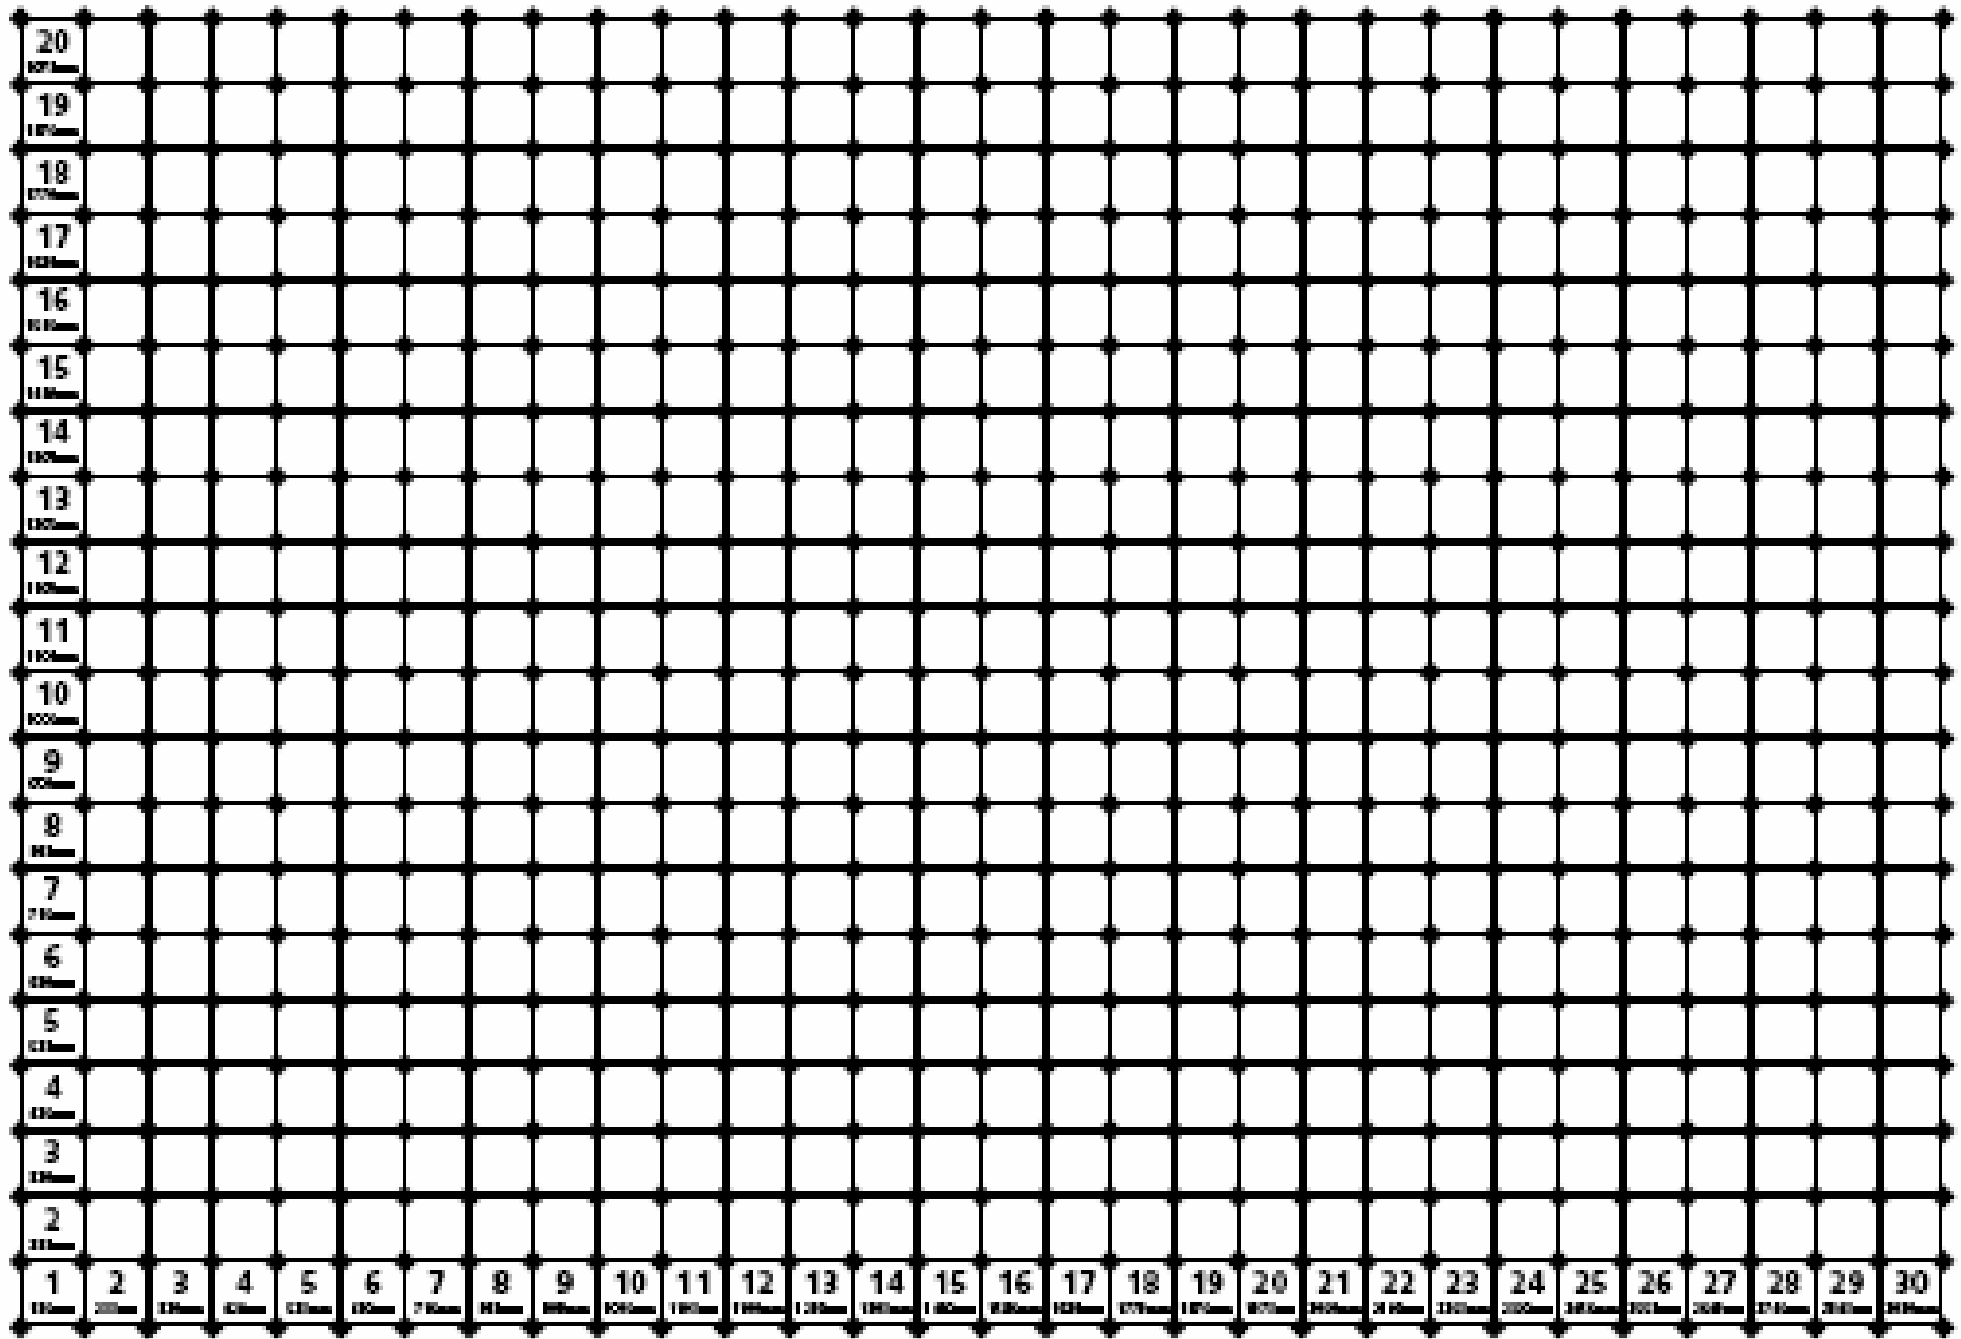

Step 4 - The price of your rack is calculated per bottle space, simply count the bottle spaces and multiply the price shown below.

Step 5 - There are 2 choices of wood colour available; Natural Pine or Dark Oak Stained Pine. Please indicate which you would like on the order form.

Step 6 - Complete the order form and the Grid Plan and send it to us with your payment cheque.

Step 7 - When we receive your order we will schedule its production and contact you regarding delivery, this normally takes 14 to 21 days but please allow up to 28 days with large orders.

**For further information please call: 0870 7 666 254
Between 9:00am & 4:30 pm Mon - Fri.**
